Projects

Shopping Site Website

Developed an interactive e-commerce platform where users can browse, search, and manage a shopping cart. Achievements: Implemented a seamless user experience with responsive design, improving page load speed by optimizing assets.

Technologies: Tailwind CSS, React.js

Key-Features: Shopping Cart, Persistent Cart, Routing

Online Hotel Room Booking System

The Online Hotel Room Booking System is a web application that allows users to browse and book hotel rooms easily, providing an intuitive and user-friendly experience. This system offers seamless online booking, real-time availability, and secure user authentication to ensure that the entire process is smooth and hassle-free.

Technologies: Tailwind CSS, React.js, Node.js, Express.js, MongoDB

Key-Features: Room Management, Online Booking, User Authentication, Payment Integration

Online Blog Website

Built a blog platform allowing users to explore and read blogs on programming and web development topics. Designed a clean, intuitive UI and integrated a backend API for dynamic content management.

Technologies: Tailwind CSS, React.js, Node.js, Express.js, MongoDB

Key-Features: User Authentication with JWT, View Blog, Routing for seamless navigation.
